## TURKEYS

### Production, Disposition and Gross Income, 1968-1969

Gross Income: Gross income from turkeys in 1969 at \$453.2 million was up 9 percent from 1968. The average price received during 1969 for turkeys marketed was 22.4 cents per pound compared with 20.5 cents in 1968.

Gross income from turkeys was above a year earlier in all regions. The South Atlantic showed the greatest percentage increase at 15 percent, followed by the West at 14. Gross income for other regions were up as follows: West North Central, 8 percent; North Atlantic, 7 percent; South Central, 5 percent and East North Central, 1 percent.

The total value of production at \$453.5 million was up 10 percent from 1968.

Number Raised: Turkeys raised in 1969 totaled 106.4 million birds, down slightly from the 106.5 million raised in 1968. Turkey production during 1969 totaled 2,024 million pounds, 1 percent more than a year earlier.

Growers raised 95.1 million heavy breed turkeys in 1969 compared with 93.2 million during 1968 -- an increase of 2 percent. The number of light breed turkeys raised totaled 11.3 million, a decline of 15 percent.

Increased numbers of turkeys raised in the South Atlantic, West and North Atlantic regions more than offset declines in the East North Central, West North Central and South Central regions.

Turkeys Sold: Sales of turkeys during 1969 dropped 1 percent from a year earlier and totaled 106.1 million birds. Growers reported 80 percent of the light breeds and 3 percent of the heavy breeds sold as fryer-roasters. The total live weight of turkeys sold in 1969 was 2,023 million pounds compared with 2,025 million pounds in 1968.

January 1 Breeder Hens: Turkey breeder hens on farms January 1, 1970 totaled 3,396,000 birds, up 3 percent from the 3,290,000 birds on hand a year earlier. Heavy breed hens totaled 3,059,000 birds, up 4 percent from a year earlier and light breed hens, at 337,000, were unchanged from January 1, 1969. The number of other turkeys (market birds and breeding toms) on hand January 1, 1970 totaled 3,278,000 birds -- 1 percent below January 1, 1969.

Death Losses: Death loss of poults in 1969 was 9.0 percent of those bought or home hatched, unchanged from 1968. Loss of breeding stock during 1969 as a percent of breeders on hand January 1, 1969 was 5.9 percent, up from 5.3 percent a year earlier.
